DESIGNING THE WEDDING *you've always wanted*

Every detail starts with clarity. By understanding what matters most to you, we help you create a wedding experience that is intentional, personal and unforgettable.

WHAT IS YOUR GUEST COUNT?

This is an important factor to consider when beginning your venue search, as many venues in Bali have guest capacity limitations. It's also helpful to consider whether your guests will require accommodation, as some venues offer on-site villas or nearby stay options.

WHAT ARE YOUR TOP PRIORITIES?

Whether it's fireworks, ocean views, a beachfront ceremony, privacy, sunset photos, or a late-night celebration, knowing what matters most to you will help guide your venue selection and create a day that truly reflects your vision.

Hot tip: If everything is a priority, nothing is. Pick your top 3 and let those drive your decisions.

THE OVERALL EXPERIENCE?

With destination weddings, your celebration often becomes a full holiday experience for both you and your guests. Think about the experience you want to create, whether it's a jungle honeymoon escape, a beachfront resort, family-friendly spaces for kids, or nearby activities for guests to enjoy throughout their stay.

Booking your venue
THE RIGHT WAY

LOVE HAS NO BORDERS

Once your vision is clear, you can start venue hunting.
But here's where most couples go wrong: they look at pretty photos and forget to ask the important questions.
Before you sign anything, run through this checklist.

01 Inclusions & Vendors

What's included in the venue package, and how flexible is it? If you'd like to swap or upgrade certain inclusions, it's important to understand the additional costs involved and whether the venue can recommend trusted vendors. You should also clarify which vendors are mandatory and which are optional before making your decision.

02 Music & Noise

Before booking your venue, it's important to ask about the time music can be played, whether there are sound restrictions, and if sound permits are included in the pricing. You chould also check whether fireworks are permitted and if the venue offers a dedicated after-party area to continue the celebration after the main event.

03 Food & Beverage

Does the venue require in-house catering, or are external caterers allowed? It's also important to ask about buffet versus plated dining options, as well as any corkage fees, should you wish to bring in your own alcohol or champagne.

Booking your venue

LOVE HAS NO BORDERS

Once your vision is clear, you can start venue hunting.
But here's where most couples go wrong: they look at pretty photos and forget to ask the important questions.
Before you sign anything, run through this checklist.

04 | Power & Technical

Does the venue have enough power supply for your DJ, lighting, and sound system?
It's also important to ask whether a generator is required, as this is something many couples overlook and can become an additional cost later on.

05 | Bridal Prep

Does the venue offer a dedicated bridal suite, and until what time will it be available to use?
It's also important to ask where personal items, outfits, gifts, and décor will be stored after the wedding.

06 | Logistics & Access

Is the venue easy for guests to access?
Some venues are located on smaller roads, which can make guest transportation more difficult, especially when arranging larger transfers.
It's also important to factor in traffic and allow plenty of travel time before the ceremony begins.

VENDOR BOOKING *guide*

- KNOW WHAT TO ASK
- AVOID COMMON MISTAKES
- BOOK WITH CONFIDENCE
- ENJOY THE PROCESS

WHERE TO *begin?*

Once you've secured your venue in your dream location, the next step is understanding exactly what is and isn't included in your package.

Start by booking the essentials that are not included first. Typically, catering and bar (if needed), photography, videography, celebrant, and hair and makeup.

Some venues may include catering and drinks, but most couples will still need to source the majority of their vendors separately. Once your core vendors are secured, you can then move on to smaller details like menu selections, styling, and upgrades later on.

CATERING & BAR

- Many venues have preferred catering & bar partners. Check if you have a choice.
- Menu styles: set, buffet, grazing or food stalls.
- Compare bar packages: basic, standard or premium.
- Ask about corkage if you'd like to bring your own alcohol.

PHOTOGRAPHY & VIDEOGRAPHY

- Coverage usually 4–12 hours (most couples choose 6–8).
- Look at different styles & editing to find what you love.
- Once booked, share your timeline, shot list & inspiration.

Hot tip: Get your spirits from wholesalers instead of having your guests bring bottles of spirits.

THE AISLE ADVISORS

LOVE HAS NO BORDERS

HAIR & MAKE-UP *essentials*

The right hair & make-up team helps you feel confident, comfortable and stunning – all day and night.

BOOK EARLY

Many artists have minimum booking requirements. Secure your team well in advance.

SHARE INSPIRATION

Send reference photos ahead of time so your artist can prepare the perfect look.

TRIALS MATTER

Do a trial if possible – it's the best way to feel 100% confident on your big day.

Quick Tips

Photo Tips

Send to your vendors:

- Timeline
- Photolist
- Style Inspiration

Bar Tips

The average 750ml bottle of spirits can make 16 drinks, if you're doing BYO.

Video Tips

Send your wedding videographer 2 slow and 2 upbeat songs (for your wedding video).

Hoto tip: Get your spirits from wholesalers, instead of having your guests bring bottles of spirits.

WEDDING *Celebrant*

There are many different celebrants, from Indonesia, Australia, America (and from anywhere) to male or female options ... it really just depends on the vibe and personality you connect with most.

If you are having a non-legal wedding, your ceremony can be completely personalized in both tone and script.

Usually, the celebrant will send you a questionnaire to get to know your story and preferences, then they'll create a draft script for you to review and adjust before the wedding day.

Quick Tips

MEET & CONNECT

Have a call or meeting with your celebrant before booking to make sure your personalities and values align.

SHARE YOUR STORY

Share your journey, special moments, and what matters most to you as a couple – this helps create a meaningful ceremony.

REVIEW THE SCRIPT

Ask for a draft of your ceremony script at least 2–4 weeks before the wedding so you have time for any changes.

VOWS & READINGS

If you're writing your own vows or have readings, check if a microphone or sound system will be available.

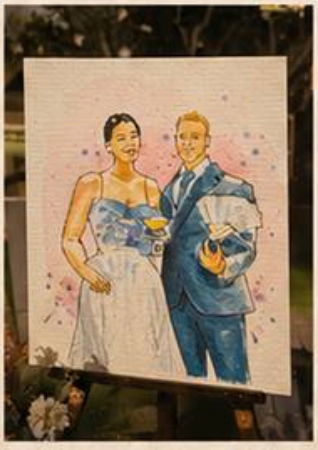
PERSONAL TOUCHES

Include rituals, cultural traditions, or special elements that reflect who you are as a couple.

The best ceremonies are the ones that feel true to you.

VENDORS THAT *elevate* YOUR WEDDING

The right vendors don't just do their job – they create the moments you'll never forget. These are the details that take your wedding from beautiful to unforgettable.



Choose your dream team wisely – they'll help bring your vision to life. ♡

LOVE HAS NO BORDERS

THE BOOKING *process*

A smooth booking process sets the foundation for a stress-free wedding. Follow these steps to secure your dream team.

1. Check availability with vendors as soon as you can; most vendors take bookings up to a year in advance
2. You can send vendors a deposit to lock in your booking, according to their terms and conditions
3. Most vendors will expect full payment 1-2 months before your event
4. This is also a good time to have your final numbers and timeline confirmed
5. Always send your vendors a brief, this includes: your wedding timeline, final numbers, final look/choices
6. Personally, I like to do a final check 1 week and 1 day before the wedding, just in case
7. Starting with email is fine, but most vendors communicate via WhatsApp, so quick questions and check-ins are very normal to do via WhatsApp

PLAN AHEAD, COMMUNICATE CLEARLY & TRUST THE PROCESS.

Great planning leads to a day you'll never forget

TIPS for *Styling & Decor*

Styling is only planned once:

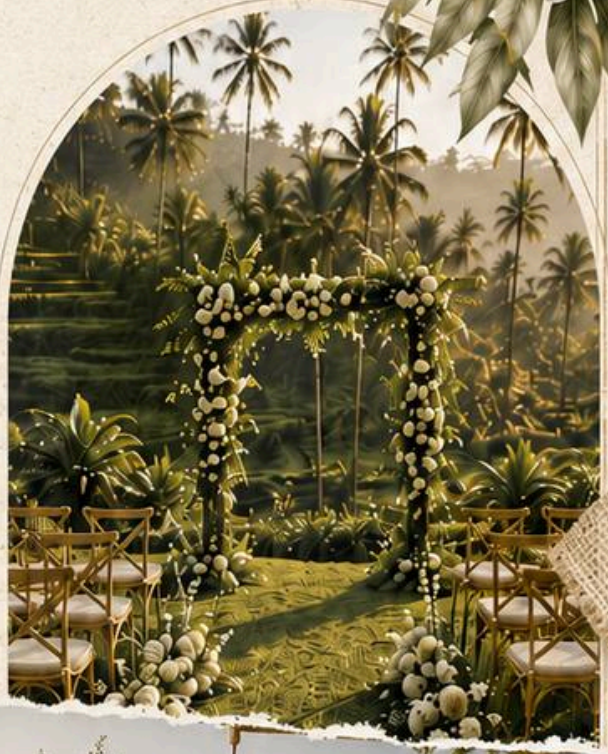
- Your venue has been confirmed, and
- Your locations have all been confirmed (is there more than one option for the ceremony location at your specific venue?)

Once you have the layout locked in, it's time to visualise what the day will actually look like.

PS: Before starting with styling, check exactly what the venue and caterers already provide.

Also, check whether there are any décor restrictions. Some venues, for example, do not allow dancefloors to be placed over grass areas as it can damage the lawn.

If the topic of styling feels overwhelming, look at the graphics below, which categorise the different elements of styling throughout the day...



WEDDING DECOR ELEMENTS:

- Bridal bouquet
- Bridesmaids' bouquets
- Groom + groomsmen buttonholes

- Ceremony arch
- Aisle flowers
- Petals (flowershower)
- Ceremony chairs

TIPS for *Styling & Decor*

When it comes to styling and décor, there are so many beautiful ways to create an elevated look without needing excessive florals or oversized installations.

REPURPOSE & RESTYLE

Ceremony arches can often be repurposed later for the cocktail hour, sweetheart table, or reception styling — saving both budget and florals while keeping the design cohesive.

ROUND TABLES

Round tables are also a great option, as they usually only require one central arrangement, while long rectangular tables often need multiple centrepieces.

CANDLES & GREENERY

Less flowers, more candles. Candlelight creates the most romantic atmosphere and instantly makes a space feel warm, elegant, and intimate.

Greenery, single stems, and smaller clustered arrangements can look just as intentional and sophisticated as large floral centrepieces.

LOCAL & SEASONAL FLOWERS

We always recommend choosing local and seasonal flowers where possible. They're fresher, more sustainable, and beautifully suited to the destination.

Depending on the season and location, lovely options can include roses, carnations, snapdragons, anthuriums, amaranthus, daisies, lilies, calla lilies, marigolds, tropical foliage, and birds of paradise.

Hot tip: Round tables use fewer flowers than long tables — a small choice that saves real money.

SMART STYLING
for a Beautiful Wedding

REPURPOSE

Design your ceremony arch using smaller arrangements that can be repurposed throughout your wedding.

RESTYLE

Ideally we wanna use less flowers, right? So instead of opting for big centrepieces, smaller single stems.

ROUND TABLES

A nice way to decrease the number of centrepieces is decreasing the number of tables needed, and round tables seat more people.

Less is often more

Hot Tip

Booking directly with suppliers can save money, but always confirm whether delivery, setup and collection are included. If you're not hiring a planner or stylist, appoint someone to oversee the installation on the day.

THE PERFECT *Timeline*

One of the most important things to remember when creating your wedding timeline is to give yourself plenty of time and include buffers throughout the day. Trust me, the most successful weddings are not necessarily the most luxurious ones, but the ones where the couple feels relaxed, present, and truly able to enjoy the experience with their guests.

♡ **A calm timeline creates a calm atmosphere.**

10:00 AM – Hair and makeup team arrives
10:30 AM – Bridesmaids begin hair and makeup

1:00 PM – 3:00 PM
Bridal hair and makeup

Always allow yourself a full two hours for bridal hair and makeup, even if you think it may take less time. It's far better to finish early than to feel rushed.

3:00 PM – 3:30 PM
Getting dressed

Even if getting dressed only takes five minutes, give yourself at least half an hour. This is such a special part of the day and often includes beautiful moments and photos, putting on jewellery, final touches, and taking everything in before the ceremony begins.

3:30 PM – 4:30 PM
Photos time

(bridal, with the girls, detail shots).

4:45 PM – 5:00 PM
Ceremony

This is usually the perfect time for a ceremony. The weather is cooler, the lighting is softer, and guests are much more comfortable than in the midday heat.

5:20 PM onwards
Post-ceremony mingling & cocktail hour

After the ceremony, take time to actually enjoy the moment with your guests before jumping straight into formal photos. Even just 30 minutes to mingle, hug people, grab a drink, and breathe makes such a difference to the overall experience.

5:45 PM – 6:00 PM
Family photos

Start with family group shots first while everyone is together and fresh.

6:00 PM – 6:45 PM
Couple sunset photos

This is usually the golden hour, with sunset around this time, making it the perfect time for romantic portraits.

7:00 PM
Reception begins

Guests can begin moving into the reception space, followed by your grand entrance, dinner service, and speeches.

7:00 PM – 9:00 PM
Dinner & speeches

Giving yourself a full two hours here keeps the evening flowing naturally and prevents everything from feeling rushed.

9:00 PM – 11:00 PM
Dancing & party time

Most venues finish around 11 PM, although some may end earlier or offer after-party options. Depending on the venue, you may choose to continue elsewhere with transport arranged for guests.

Pro Tip

Build in buffer time between each part of the day. Things take longer than you think – enjoy the moments without feeling rushed.

YOUR *Wedding* CEREMONY

CEREMONY *Tips*

LOVE HAS
NO BORDERS

A FEW IMPORTANT CEREMONY DETAILS TO CONSIDER:

TRADITIONALLY, the bride's side stands on the left, and the groom's on the right, but for symbolic ceremonies, we recommend choosing the best side for lighting and photos.

BRIDESMAIDS can stand beside the bride or be seated for a cleaner look.

YOU CAN ALSO choose assigned seating, with front rows typically reserved for family.

A MODERN TREND is seating the bride's family opposite her so they can see her face during the ceremony.

YOU'LL ALSO need to decide who will hold the rings and whether you'd like to include a certificate signing.

CEREMONY LAYOUT

What Our Couples Say

Hearing kind words from our couples
means the world to us.
We are so grateful for their trust and support.

★★★★★

We started our wedding planning in 2020 pre-COVID, it had been quite a long process due to no postponement. Unavoidably we had to deal with a few different planners since they left due to various reasons.

Luckily Caitlin, the planner who looked after us in the last 3 months had been an absolute star. She picked up everything we communicated with the precious planners and was very responsive and efficient.

Our magical day would not be possible without the fabulous Caitlin!! Caitlin was absolutely brilliant throughout our almost 1.5 years journey. Our planning process was personalised, exciting to plan and also a very easy/smooth journey. Caitlin has a positive mindest, empathy and is genuinely willing to assist, book and look into any requests we have made.

During our wedding day we were extremely at ease with the process as we knew Caitlin could manage any requests and or issues that may arise. Caitlin is the most professional wedding planner and is extremely meticulous with finer details and scheduling.

I cannot recommend this company more.

Our wedding planner, Caitlin, went above and beyond throughout the entire process to help plan not only our wedding day, but all of the events we had in the week of our wedding. It was stress free, very supportive and every event ran smoothly. Caitlin was patient and helpful at every stage of the planning and genuinely felt like a friend.

I was 5 months pregnant for our wedding and she made sure that I had everything I needed to be comfortable.

Our wedding day was absolutely incredible. The venue was jaw droppingly stunning, the day flowed from event to event and we were able to pull off some surprises for our guests. Multiple people told us it was hands down the best wedding they have ever attended.

Our wedding planner Caitlin was incredible and we would highly recommend working with her if you are able. We actually miss the FaceTimes with her! Everything was made incredibly easy for us, we never felt pushed to purchase things that were unnecessary and on the day Caitlin and Brett were there to handle everything.
